Project: AI Object Recognition & Counting – Proof of Concept

Price: $550
Delivery Time: 30 Days

Scope of Work:
AI-based recognition and counting of selected product types.
Display separate counts for multiple object categories.
Test with sample product images and camera input.
Evaluate counting accuracy under agreed testing conditions.

Deliverable: A functional AI proof of concept to demonstrate object recognition, counting, and achievable accuracy.

Note: This is a technical prototype, not a complete mobile application. Advanced features and full-scale development can be discussed in the next phase.

Thank you.
